WOODEN JUNGLE GYMS: 2026 Price List

At Enzo Jungle Gyms we **specialize** in manufacturing of **Steel Jungle Gyms** and **Wooden Jungle Gyms**. We also supply Educational Toys, sleeping mats or sponge for ECD Centers, Grade R and Foundation phase.

All our structures can be modified to yours and your child's needs. You can add fireman's poles, tyre towers, sandpits, climbing walls, Climbing Rope, slides, swings, rope ramps, drum tunnel, and many more.

We choose to use quality materials which ensures the safety of the units with poles being treated to SABS standards for the safety of your children. All our structures are painted with an oil based or timber varnish oil/wax based penetrating wood dresser. This wood dresser penetrates, stabilizes and nourishes the wood.

Our Jungle Gyms can accommodate multiple children at once which allows children to play together to improve their social skills and develop a friendly personality and teaches them to share and deal with conflict.

The best part is that the children are enjoying themselves and having fun while their development grows from strength to strength.

Please choose the Jungle Gym that you like from the list below and send it to us via email or what's app, you are welcome to contact us with any of the above numbers, and we look forward in hearing from you.
